

## **ABOUT US**

**PeopleConnect** is a full service high tech executive search firm specializing in the recruitment and placement of experts in business development, finance, human resources, marketing, sales, as well as in scientific and technical positions. We fill positions at the Manager, Director, Vice President and "C" level for all industry sectors including, Biotech, E-Commerce, Electronics, Wireless, Semiconductor, and Telecommunications.

We provide contingency searches for our clients. As contingency recruiters, we find top-notch executives for companies in the High Tech, Biotech and scientific communities. In addition, we also provide highly trained and experienced contract recruiters through our Contract Recruiting Solutions division.

## **EMPLOYEES WITHOUT PAYCHECKS**

**PEOPLECONNECT** has had a great deal of success helping startups who need to have great people on their team, but don't have the funding yet to be able to hire them. We have found outstanding people who are willing to work for equity only or equity plus commission until a startup company has secured its next round of funding. Our candidates are seeking full time permanent employment. We help you negotiate the package. They begin work without a paycheck and when your next funding round is complete the candidates' base kicks in. Until then, they receive their monthly salary in options.

This is a unique win-win solution to the "Catch 22" of not having funding in place to develop your team, and being told by potential investors that you need a more developed team. **PEOPLECONNECT's** Equity Only or Equity Plus Commission Solution has helped many companies close their next round of funding earlier by having their team in place to get to profitability sooner.
